The flexible wallbox.

CHARGING 4FLEETS

Easy charging.
Precise billing for fleets.

Precise billing, no installation, charge anywhere.

Charging4Fleets: Fleetmanagement by NRGkick

Discover the future of electric fleet management with Charging4Fleets from NRGkick, a comprehensive solution that offers seamless integration and straightforward billing for electric vehicles, fleets and vehicle fleets.

This innovative technology helps businesses manage their electric fleets efficiently, bill for charging seamlessly and integrate electric mobility into their daily operations.

The system supports charging at home, at work and at public AC charging stations, and records all employees' charging sessions in the Charging4Fleets portal.

To the video

Benefits of Charging4Fleets

» Easy Monitoring

Dedicated online portal for managing all chargings/costs.

» Charge company car at home

Employees can charge their company car at home and bill with their employer.

» No Installation

With NRGkick, you can charge wherever there is electricity, without installation costs.

» Pre-configured NRGkick

The charging units are supplied with pre-configured software.

» Payout

Charging costs can be reimbursed either directly by the company or, alternatively, via the Charging4Fleets system. This allows for a flexible and straightforward reimbursement process.

» Passing on the charging unit

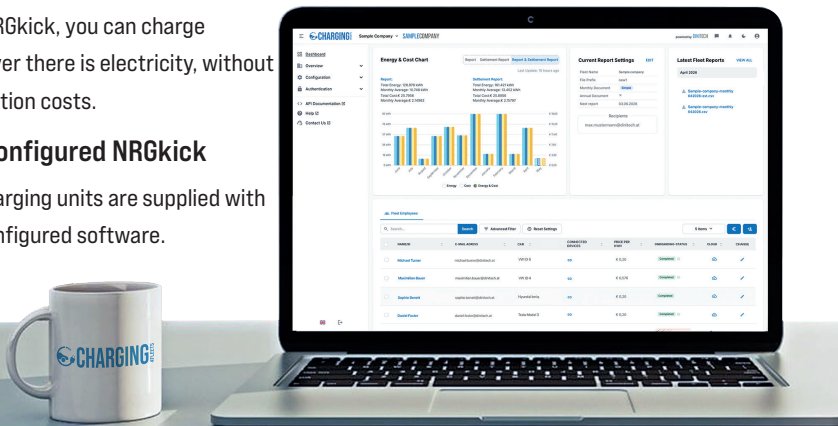

NRGkick can be passed on within the company without extra cost.

» Standard price

A standard price can be defined for the entire fleet or an individual price for the charging costs for individual charging units.

» Accurate measurement

No charging data is ever lost. All charging sessions are recorded with kWh-level accuracy, stored securely, and automatically uploaded to the portal as soon as NRGkick is back online.

Für employer

Benefits of Charging4Fleets

Full access control

Monitoring and management of all charging units via the Charging4Fleets portal.

Cost and energy overview

Clear visualisation of costs and energy consumption per user or user group.

Easy user administration

All users and charging units are clearly displayed and can be expanded at any time.

Automatic Reports

Precise & clear reports are automatically sent to the desired email addresses on a monthly basis.

Simple transfer of NRGkick

Simply hand over NRGkick to new employees or in case of employee changes, at no extra cost.

Precise billing

NRGkick stores all chargings exactly to the kWh & uploads all data to the cloud. Therefore, no chargings get lost.

Cost-effective charging

Charging at the company location or at home means that charging can be carried out at lower cost.

Charging Unit Status

Display of all NRGkick charging units including current live status (online, offline or charging) via the online portal.

For employees

Benefits of Charging4Fleets

Separate Charges

Mark charging sessions via the app or online portal (e.g. private charging or charging at company locations).

No Installation

A fixed wallbox is not necessary. NRGkick is a flexible wallbox that charges at any power source.

Charging at home

Company cars can be charged at home and electricity consumption is recorded accurately

Charging at the company

Simply use NRGkick and charge at the company location. Chargings are saved and uploaded.

Dedicated User Portal

Every NRGkick user receives a personal charging overview and access to the employee portal.

Efficient charging

Charging can be carried out efficiently during working hours or overnight at home.

No idle times

No additional trips or waiting times to and at charging stations with the company car.

Less effort and costs

NRGkick can simply be taken along in case of a move without causing any additional costs.

Features

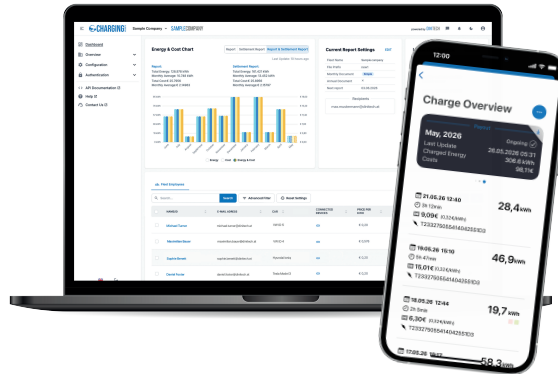

Charging4Fleets Portal

Flexible user management

Different user groups and locations can be defined and summarised.

Monitoring & Management

The charging unit gets assigned to an employee and can be customized using additional fields.

Charging4Fleets smart in the app

Keep track of charging energy, costs and reimbursement status at any time directly in the app.

Organised Dashboard

Online portal with simple overview of all Employees/IDs including live status: online, offline or charging.

Charging statistics

All charging processes, costs and charging times are clearly displayed and can be viewed at any time.

Charging reports & annual reports

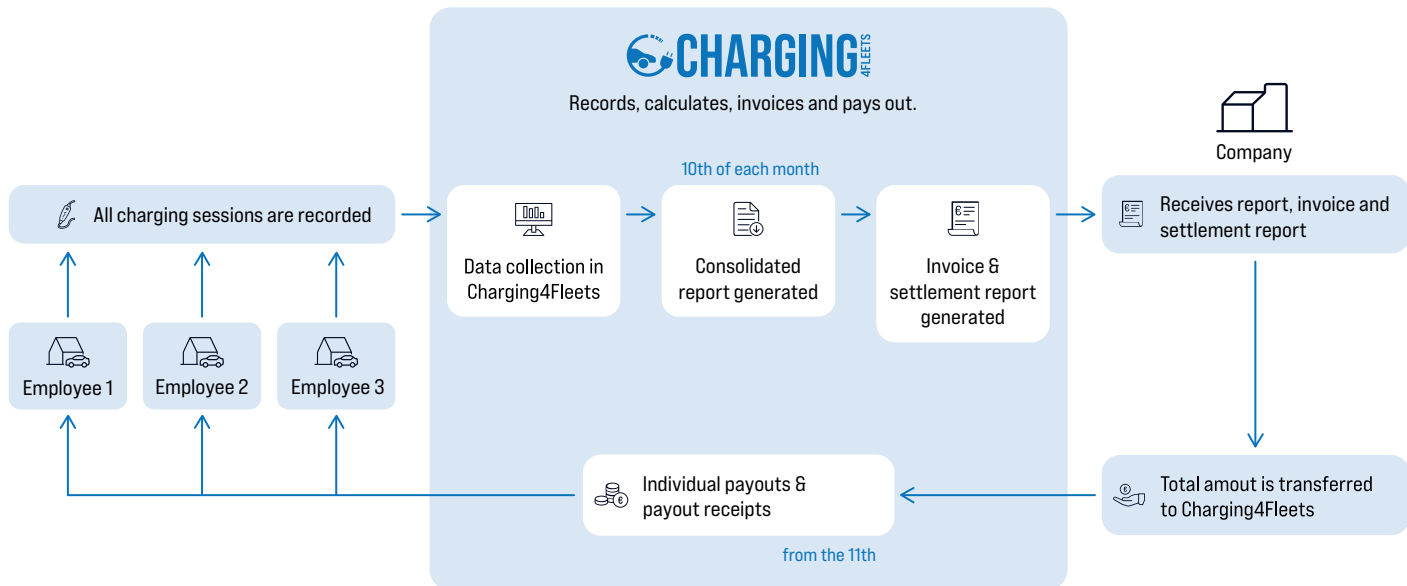

Automated monthly charging reports or the complete annual report can be sent to predefined email addresses.

Exclusion rules

Charges can be marked by transaction tags and excluded from the billing.

Payout Service from Charging4Fleets

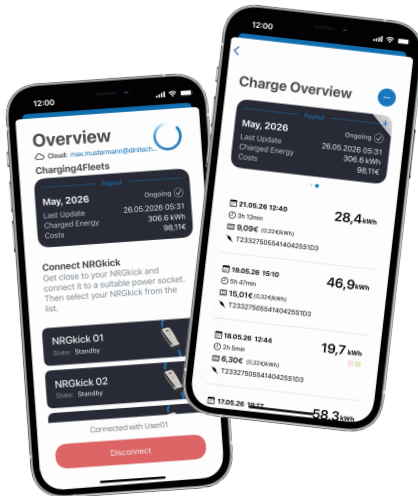

Employees charge their company vehicles at home or on the road while NRGkick and Charging4Fleets automatically and seamlessly record every charging session. Fleet managers receive a monthly report containing all charging activities and the corresponding costs. Charging4Fleets handles the entire reimbursement process: from recording private charging costs and generating billing data to direct payouts to individual employees.

Intelligente Abrechnung in der App

Charging4Fleets Portal

Particularly convenient: Employees can exclude individual charging sessions from reimbursement directly in the NRGkick app – for example when charging at a company location. This eliminates manual post-processing and ensures that reimbursement records are always accurate and up to date.

Monthly Overview at a Glance

Charging energy, costs and reimbursement status are displayed in one compact overview.

Detailed Charging Overview

All charging sessions are displayed transparently, including date, energy consumption and costs.

Flexible Exclusion of Charging Sessions

Charging sessions can be excluded directly in the app from reimbursement calculations – simple, fast and fully traceable.
